

DEER RESISTANT

These trees are rarely eaten by deer. However, all trees can be damaged if deer rub their antlers against them. (Plants marked with * are those that we typically have in stock.)

Trees

Ash (Fraxinus)
Bald Cypress (Taxodium) *
Beech (Fagus) *
Birch (Betula) *
Black Gum (Nyssa) *
Buckeye (Aesculus) *
Catalpa (Catalpa)
Dawn Redwood (Metasequoia)
Ginkgo (Ginkgo) *
Hemlock (Tsuga)
Holly, American (Ilex opaca) *
Ironwood (Ostrya)
Larch (Larix)
Locust, Black (Robinia)
Locust, Honey (Gleditsia)
Mimosa (Albizia)
Pine, Austrian (Pinus nigra)
Pine, Scotch (Pinus sylvestris)
Redbud (Cercis) *
Sassafras (Sassafras)
Smoketree (Cotinus)
Sourwood (Oxydendrum)
Spruce (Picea) *
Sweetgum (Liquidambar) *
Sycamore (Platanus)
Tuliptree (Liriodendron) *

Shrubs

Barberry (Berberis) *
Beautybush (Kolkwitzia)
Beautyberry (Callicarpa) *
Boxwood (Buxus) *
Coralberry (Symphoricarpos)
Crape myrtle (Lagerstroemia) *
Elderberry (Sambucus)
Forsythia (Forsythia) *
Fothergilla (Fothergilla) *
Holly, Chinese (Ilex cornuta)
Holly, Inkberry (Ilex glabra) *
Juniper (Juniperus) *
Kerria (Kerria)
Lilac (Syringa) *
Oregon Grape Holly (Mahonia)
Pieris (Pieris japonica) *
Russian Cypress (Microbiota) *
Smoke Bush (Cotinus) *
Spicebush (Lindera)
Spirea (Spiraea) *
Sumac (Rhus)
Summersweet (Clethra) *
Sweet Shrub (Calycanthus)
Sweetspire (Itea) *
Weigela (Weigela) *
Witch Hazel (Hamamelis) *
